These standards have multiple components (qualitative and quantitative measurements) that include a minimum cumulative grade point average requirement (CGPA); a minimum successful completion rate based on all clock hours attempted; and a maximum time frame requirement.

SAP - QUANTITATIVE CRITERIA

Students must complete at least 67% of the attempted clock hours of the corresponding evaluation period to remain compliance with the institution's SAP Policy. Clock hour progression will be based on a cumulative total of attempted hours to earned hours. For example, a student that is in an SAP evaluation period of 450 clock hours is required to successfully complete a minimum of 302 clock hours ($450 \times 67\% = 302$).

SAP - QUALITATIVE CRITERIA

Under the qualitative criteria, to make Satisfactory Academic Progress (SAP), the student must demonstrate a minimum overall cumulative grade point average (CGPA) of 2.0 at the end of the SAP evaluation period been considered.

SAP-WARNING STATUS

A student who fails to establish or maintain Satisfactory Academic Progress (fails to meet the SAP Quantitative criteria or SAP Qualitative criteria) will be placed on warning status during the following SAP evaluation period. At the end of the period in which the student is on warning, the student's overall GPA and clock hours completion percentage will be recalculated. A student will be removed from warning status only if the student complies with both SAP quantitative and qualitative criteria. A student that fails to earn a satisfactory SAP evaluation after completing the warning status will be placed on a probation.

SAP – PROBATION STATUS

A student who fails to establish or maintain Satisfactory Academic Progress (fails to meet the SAP Quantitative criteria or SAP Qualitative criteria) will be placed on probation status during the following SAP evaluation period. At the end of the probation period, the student's overall GPA and clock hours completion percentage will be recalculated. A student will be removed from probation status only if the student complies with both SAP quantitative and qualitative

criteria. A student that fails to earn a satisfactory SAP evaluation after completing the academic probation will be withdrawn from the program of enrollment.

SAP - EVALUATION AND TIME FRAME TO COMPLETE (MTF) POLICY

The maximum allowable time frame for students to remain active in a program of enrollment is equal to 150% of the total hours of enrollment as specified in the enrollment agreement.

This criterion allows students to repeat courses when fail and continue in the program of enrollment if the total hours attempted by the student do not go beyond 150% of the total hours of enrollment as specified in the enrollment agreement. Students still in attendance, beyond the total number of hours as specified in the enrollment agreement, are not required to pay a tuition charge for every extra hour attended.

Students that do not successfully complete their program when reaching 150% of total hours attempted will automatically withdraw.

Students that have successfully completed the program are allowed to take any of the courses one more time at no charge if there is space in the classroom to accommodate the additional student. In the case there is no space in the classroom at the time the request has been placed, students are provided with the time frame the course will be offered again and encouraged to confirm space availability within a week of course start.

SAP - APPEALS

Any student who has been placed on academic probation but who feels that there were mitigating circumstances that caused him or her to fail the SAP standard, may file a written appeal with supporting documentation to the School's President, who will make the final decision regarding about the student's appeal within 5 days. If the student's appeal is granted, the student will be making satisfactory academic progress.

ACADEMIC DISMISSAL

Any student who has been academically dismissed will not be considered for readmission to the institution until 6 months have passed. The student will have to reapply for admission, satisfy all admissions criteria in effect at the time, satisfy any outstanding financial obligations to the institution, and retake any failed classes before proceeding to other courses.
